M-Files Copilot Connector Release Notes

Summary of the fixed issues and improvements in this release:

M-Files Copilot Connector (24.8.5.0)

Defect: Documents cannot be synchronized if an associated user (e.g. the creator) is not available in the vault.
ID: 171338
Symptom: When attempting to synchronize a set of documents that contains a document that references a creator or last-modifier which no longer exists in the vault, the synchronization process fails. An exception can be seen in the log.
Solution: Fixed
