

M-Files Connector for Salesforce Release Notes

Note! This is a license protected version of Salesforce connector. Contact licensing@m-files.com to get a valid license.

Signed M-Files Connector for Salesforce is compatible with M-Files Online - June '22 Update or newer.

Summary of the fixed issues and improvements in this release:

M-Files Connector for Salesforce (24.6.4.0)

Improvement: Better logging support for Salesforce external object plugin

ID: 166853

Description: The Salesforce external object plugin now uses the core VAF logging framework, creating logs that can be downloaded from M-Files Manage or M-Files Admin.
